[4]	Plate No. 1	\$1,600	
[4]	Plate No 2	\$800	
Note	Plate 1 occurs in both L8e and the later L8f - these possibly all being from one printing though some were perforated 12' / 2 by Waterlow's during the exigencies of war. The total printing from Plate 1 on the coarse paper must have been small if the scarcity of Plate 1 blocks is accepted as evidence.
